

job opportunity;

CAD Drafter

ptc. is a dynamic boutique consultancy firm offering a unique range of services, centering around the customer journey to and from specific destinations (airports, hospitals, shopping centres, commercial buildings, residential properties, universities, etc.).

We specialise in services including parking layout and traffic flow design, concept road and intersection design, traffic control signal design and wayfinding and signage, just to name a few. Through the advice we provide to property owners and developers, we have established a sound reputation over the past 30 years for consistently maximising the income and capital value of our clients' properties.

Our head office is located in Cammeray, from which we service clients all over Australia as well as overseas. Our clients include a wide range of blue chip companies in the property sector and leading Government agencies operating within all land uses.

Our team provides a nurturing environment where the human element is of utmost importance. We treat our staff and our clients as we ourselves expect to be treated. You can check our values as well as the details of the team, clients and projects on our website at www.ptcconsultants.co

Job Summary

Due to our success and continuing growth, we are looking to expand our team in Sydney with the addition of a CAD drafter specialist to join the team of civil and traffic engineers and planners.

This fantastic full-time opportunity will provide the right candidate with access to a wide range of projects in the transport, traffic, civil and parking sectors. You will have the opportunity to support our team with high quality designs as well as liaison with clients.

Your education and work experience

- Relevant qualification in Civil drafting
- Proficiency and expertise with AutoCAD
- 3 to 5 years of experience in preparation of AutoCAD plans from concept to detailed designs for local projects, within roads and highways as well as detailed design of civil, traffic and transport projects.
- Experience in coordinating packages of drawings between engineers and designers
- Familiarity with local authority and state government approval and regulatory requirements

Your skills and other requirements

- Outstanding communication skills, both written and verbal form
- Experience in 12D, Civil 3D or MX would be an advantage.
- Local experience is required.

More about you

- Enthusiastic, positive, creative, intelligent, drive to succeed and client-focused
- Self motivated, able to work in a small team either in a group or alone with experience of delivering large projects with minimal supervision
- Strong ethical working principles
- Enthusiasm for working with a friendly and vibrant team

We value our staff and reward them appropriately with a highly attractive salary package and a range of benefits, which include but are not limited to:

- Flexible work hours
- Annual Performance Bonus for eligible staff
- Training and development opportunities

We would love to hear from you so please send your resume and cover letter to info@ptcconsultants.co

good luck;
ptc.
