

Traffic Project Director

the opportunity

ptc. is an expert engineering consultancy, with over 40 years' experience in providing tailored traffic, car park, transportation and civil engineering solutions across a wide range of notable and iconic projects.

We are committed to innovation and delivering quality outputs for our diverse base of private sector and government clients. Due to a strong pipeline and continued growth, we are looking for an experienced Traffic Project Director to join and lead our expanding Traffic team.

the role

- Some of the key responsibilities of this role include:
- End to end Traffic Engineering project management
- Project pipeline management
- Project performance management
- Project financial management
- Technical support & review
- Team leadership, training and mentoring
- Business development
- Client relationship management

skills required

- Demonstrated Traffic engineering Project Manager or Director experience
- Demonstrated experience in leadership and managing a results-driven team
- Exceptional stakeholder & client relationship management skills
- Sound problem-solving for successful project outcomes
- Passion for innovative thinking and efficient design
- Tertiary qualification in a relevant field

culture and benefits:

Our team come from a wide variety of backgrounds and we take pride in fostering a nurturing, inclusive and diverse workplace environment. ptc. are committed to providing our employees with career development, genuine growth opportunities, support and recognition, and a rewarding work-life balance. We offer:

- Work on a broad range of iconic and notable projects and clients
- Hybrid and flexible working options
- Collaborative, inclusive and diverse work culture

- Learning and talent development programs and opportunities
- Long-term career development pathways
- Employee assistance program
- North Sydney location, close to transport
